

Pulsara **ONE** is a complete out-of-hospital solution—AND it's FREE* to everyone.

BUILD A REGIONAL COMMUNICATION NETWORK

* No catch. Free to EMS and the Emergency Department.
Don't let the other guys confuse you.

Pulsara ONE

You don't need yesterday's EMS tools that keep teams in silos. You need a regional communication solution. The paramedicine story of today and tomorrow is about being able to connect to the right team for the patient whether being treated on scene, transported to an alternative destination, or to a receiving hospital. **#ItsAboutPeople**

SIMPLIFIED COMMUNICATION

PRE-REGISTRATION

ANY PATIENT. ANY CONDITION. ANY PROVIDER.

No more inefficient patient reports via phone or radio. Instead, with just a few taps you're back to focusing on what really matters: **YOUR PATIENT**. Building a patient-centric regional communication network is simple.

"The ability to connect to the right person at the right time for the right patient is a game changer. Pulsara integrates EMS into the evolving healthcare world."

PAUL BANERJEE DO, EMS Medical Director | Polk County Fire Rescue
